Grounded in Community Spaces

Photographic documentation records our workshops across school corridors, courtyards, and local parks in Chirag Dilli and Hauz Rani. Caregivers sit together on woven floor dhurries, participating in emotional check-in exercises and interactive group storytelling.

Zero-Cost ECCE Learning Artifacts

Our visual catalog documents over 300 handmade developmental toys crafted by parents using discarded cardboard, fabric remnants, and pulses. These sensory materials provide foundational tactile and fine-motor stimulation in low-income households.
